Truth Is a Lonely Warrior Paperback –

4.5 561 ratings See all formats and editions

Twenty-five years after publication of The Shadows of Power, James Perloff returns to the venue of political history, and takes you where the mass media won't.• Who benefited from the mysterious sinking of the USS Maine?• Why did President Woodrow Wilson order the manifest of the torpedoed Lusitania hidden in the archives of the U.S. Treasury?• After the official inquiry into the Pearl Harbor attack, why did Admiral Kimmel and General Short – the commanders at Pearl Harbor – want to be court-martialed?• Why was the Soviet Union given control of North Korea after World War II, when the Soviets did nothing to win the war in the Pacific?• What did Congressional Medal of Honor recipient James Stockdale reveal about Tonkin Gulf (the event used to justify intervention in Vietnam)?• How did "Operation Rockingham" lead America into the Iraq war?• Since its founding in 1921, what small organization has produced 21 Secretaries of Defense/War, 19 Treasury Secretaries, 18 Secretaries of State, and 16 CIA directors?• How did Jimmy Carter go from a generally unknown figure to Presidential nominee in just seven months?• Why has America had decades of destructive inflation (understated recently by the Consumer Price Index), when there was zero NET inflation from the days of the Pilgrims until the early 20th century?• Why did the Vietnam War last 14 years – and end in defeat – when it took us only 3 and ½ years to win World War II?• What did the head of the Ford Foundation tell Congressional investigator Norman Dodd that made him "nearly fall off the chair"?• Is it possible that many kings and other monarchs of past centuries were not as evil as they've been portrayed?• What American capitalists were given landing rights for their private jets in Moscow – at the height of the Cold War? • What KGB defector predicted glasnost five years in advance – yet was ignored by the major media?• Who is at the top of the pyramid on the back of the dollar bill?• Why was the USS Liberty attacked in 1967, and why was there no Congressional investigation?• The official explanation of 9-11 – where do we BEGIN to name the holes?• Were the Beatles a set-up?• Who financed ecumenism and the decline of Christian faith?• What are world elitists saying about population control?• What are courageous doctors revealing about vaccines that the major media won't report?• Does weather control go beyond seeding clouds? What is behind the recent spike in weather disasters?• How did the Establishment trick conservatives into supporting its "free trade" agenda, destroying millions of U.S. jobs?• Who's pouring billions of dollars into the "green" movement?• 1984 – the amazing ways in which Orwell got the future right.• And how does ALL this tie together?If you are one of those who senses that something just isn't right with the explanations we are given for wars, our dying economy, and other world events, this book may be just right for you. Countless lies have been planted in the corporate-controlled media to benefit the rich and the few; these lies have become "fact" through the mechanism of frequent repetition. Refuting such lies with credibility requires in-depth analysis. Therefore, beware of reviews of this book which attempt to debunk it by pulling a sentence or idea out of context. Read the book for yourself. Truth Is a Lonely Warrior is a ticket to de-brainwashing.341 Pages. Fully indexed. Great, great book!!

If you want to KNOW of some of the innumerable lies that accost us throughout recent "historically" documented propaganda, this is a great book to get you to realize that facts aren't "true facts" that we're being told... People have been engineered to be sheeple, and this book explains a lot about the reasons why.

It's conclusions are still short-sighted, however it still offers the readers a very sturdy platform to begin or continue to see how we've all been brainwashed then reprogrammed to "believe" in Ludacris beliefs without any understanding whatsoever at all.

Five stars for crating this foundational platform. But, again, the conclusions are based on this writers own misperceptions of the truth because he's still using "logic" FROM THIS MATRIX to explain his conclusions. And these conclusions are still a part of the lies because his "operating system" (brainwashed and reprogrammed - "boxed" into the lying Matrix) only allows him to use this Matrix's foundation of lies to

Brilliant analyst with flawed theology

Reviewed in the United States on May 29, 2016

I consider myself somewhat of an expert “conspiracy theorist.” (The first thing one should learn about the term “conspiracy theory,” is that recent FOIA releases have proven that the term itself was a deliberate CIA psy-ops, released as a project in 1967, which was designed to discredit research into the bogus official stories of JFK, RFK, and MLK murders.) But to my surprise, considering my prior knowledge base, I still learned quite a bit from this book on a variety of topics. Perloff is a brilliant, meticulous researcher and both the details and much of the over all agenda of the globalists, NWO, Illuminati, satanists, or whatever label you choose to apply to this disgusting and creepy group of miscreants, of whom Henry Kissinger is the foul war criminal poster boy. I recommend the book highly both for newbie CT's and for journeymen and masters.

So with such praise, why did I award the book only four stars? Frankly, it's his theology. He is an avowed Christian fundamentalist. And this has led him to some assertions which made my jaw drop. For example, he refers to the Prime Creator of the universe as "God the Father.' Well, anyone with a lick of brains should

Standing for truth

I have been getting mistrustful of the media gradually more and more without anyone telling me to be mistrustful or concerned. Now I am glad there are writers who see and write about this. James Perloff and others write amongst other things, about how the Establishment make the appearance of being right but deliberately distort truth for an outcome. I liked reading what he sees is going on and where he believe this is taking us.

Great informative read. I enjoyed the ease and tone of how the author addressed the reader and found it helped with my understanding. If you're a truth seeker and want to know how the past has a relevance to the present and future then I recommend this book. The truth really is a lonely warrior!
